

Just Believe

Nell

Just believe everything what you read,
what they say, you know it's true
I've slept with a third of the city
And been fucked by the other two
All I need is a piece of emotion
Just a dirty scrap would do
I didn't think you'd act like that
I'd never think that would be you

Just believe everything what you read,
what they say, you know it's true
She has slept with a third of the city
And been fucked by the other two
It hurts more to be stabbed in the back
I will wait for the perfect time
When the system starts to break
You can tell what's real
And what is fake

All I need is a piece of emotion
Just a dirty scrap would do
I didn't think you'd act like that
I'd never think that would be you
