

Lady C

Nell

I strolled through the back door
I got a blow on my head
The lights, they were blinding
And the stars deafening

I stared at you breathing
Started breathing with you
You were the only
Girl to dance with

Dance with me, Lady C
We're gonna swirl in the snow
Until you say 'enough'

Dance with me, Lady C
We're gonna swirl until stars
Burn their names into my arms

You stuck
your tongue
into my nose
You grab
my head
and smash it
against yours

Dance with me, Lady C
We're gonna swirl in the snow
Until you say 'enough'

Dance with me, Lady C
We're gonna swirl until stars
Burn their names into my arms

Dance with me, Lady H
Cover me, show me your maze
Lady H, help me cope
Now I know, this blizzard never stops
So lady H
in your maze
Hold me tight

Till my burned hands finally fall off
