## Gone

Gone, she got me gone Girl, you know you got me gone Nelly got me gone, gone, gone, gone Boy, you know you got me gone

Remember that chick that used to live Right up the block from me I seen her yesterday and she still fly She still right, still tight, still fine Yep, I still wanna make her mine

And I, I want much more than just a moment See I ain't tryna lease or try to rent, I'm tryna own it, yeah This time I'll make my move, this time I'll show and prove Prove that I'm really irreplaceable

Plus, I don't know if she ever been told But I got whatever she needs, yeah And whichever way we go No one could ever take what we've got

Right here between one another Don't care what they say, you gon' be my lover And if it's in love, baby, I wanna fall Just promise me, baby, you'll be here through it all

I'll do it again if I had to, throw this money at you Girl, you know you got me gone I'll do it all again if I had to, you ain't gotta ask, boo Boy, you know you got me gone

Kelly got me gone, gone, gone, gone Girl, you know you got me gone Nelly got me gone, gone, gone, gone Boy, you know you got me gone

You know I still got the love for you, baby You still be drivin' me crazy And all of my heart will forever be yours And no one could ever break what we've got

Right here between one another Don't care what they say, you gon' be my lover And if it's in love baby, I wanna fall Just promise me baby, you'll be here through it all

I'll do it all again if I had to, throw this money at you Girl, you know you got me gone I'll do it all again if I had to, you ain't gotta ask, boo Boy, you know you got me gone

Kelly got me gone, gone, gone, gone Girl, you know you got me gone Nelly got me gone, gone, gone, gone Boy, you know you got me gone

Look shawty I done told you once
