

# Nothing Without Her

Nelly

So they say, she's a bad girl  
Some say she's a bitch, she's a liar  
Fucking with her is like playing with fire  
So I'll say (so I'll say) hey that's my girl (that's my girl)  
And Imma be the one that's gon' make her better  
And you can always see the two of us together  
Cos when I'm going through some things I  
Know that she's my daylight  
In the middle of the darkness  
I can see things clearly  
Because she's near me yeah

Aint no way I'm letting her go  
See I've been warned by everyone around me  
She gon' be the death of me oh yeah  
But aint no way I'm letting her go (no)  
See all the money in this world don't mean  
Nothing without her, nothing without her yeah

So they say, she's a problem  
It aint nuttin cos I'm known to be a solver  
And I aint worried about what other people call her  
So I'll say (so I'll say) I tamed the wild one (I tamed the wild one)  
I aint saying I can make nobody perfect  
But I can really see what's underneath the surface  
Cos when I'm looking in her eyes I  
See there's love inside I  
Wanna be the one to show her  
That I'm truely devoted  
She's gonna know it yeah so

Aint no way I'm letting her go  
See I've been warned by everyone around me  
She gon' be the death of me oh yeah  
But aint no way I'm letting her go (no)  
See all the money in this world don't mean  
Nothing without her, nothing without her yeah

Let me be the reason baby let me be the cause  
Let me the only one you let up in your heart  
Let me be the picture, sitting in your frame  
Let me be your lover, I'll let you be the same  
(2x)

Aint no way I'm letting her go  
See I've been warned by everyone around me  
She gon' be the death of me oh yeah  
But aint no way I'm letting her go (no)  
See all the money in this world don't mean  
Nothing without her, nothing without her yeah
