

# Spin The Block

Nelly

One more time for old times' sake  
Pullin' up in your driveway  
Hope you told your folks that I'm comin' home  
Sorry for the long, long wait  
Put it in reverse right quick  
Say it never works like this  
Yeah, I made mistakes when I hit the brakes  
But I had to learn like this  
Every night and every day  
I hope one day, maybe we'll make it back soon

When we said goodbye  
Guess it wasn't what we really meant  
'Cause mile after mile  
I keep passin' the places we've been  
Yeah, we kicked up some dust  
And got stuck in some mud  
But we got back to us in the end  
Yeah, that look in your eyes  
Looks like this old truck  
Might be spinnin' the block again

Spinnin' the block  
Spinnin' the block  
Spinnin' the block again

Never knew a love like this  
Tried to keep it thug like this  
Seen your ass in person, spit a couple verses  
Never knew we'd hug like this  
New day, old flame  
Even more, I ain't here, man  
Now we goin' crazy 'fore you had a baby  
Gotta change your last name  
Every night and every day  
I hope one day, maybe we'll make it back soon

When we said goodbye (goodbye)  
Guess it wasn't what we really meant (mean it, mean it)  
'Cause mile after mile  
I keep passin' the places we've been  
Yeah, we kicked up some dust  
And got stuck in some mud  
But we got back to us in the end  
Yeah, that look in your eyes  
Looks like this old truck  
Might be spinnin' the block again

Every night and every day (yeah, uh)  
We'll be spinnin' the block again  
Every night and every day (yeah, uh)  
I'll be spinnin' the block again
