

Window Pane

Nelson Freitas

You act like you shy, but I know better
Say I'm your guy, but I know better
You play me for fool, but I know better
Deep inside you're cool, yeah I know better

So bring it all, bring your all
All to me
I like what I see yeah
Bring it all, bring your all
All to me

She said I can stand the sound of the raindrops
Dripping down my window pane
I can stand the sound of the raindrops
Dripping down my window pane

You act like you shy, but I know better
Say I'm your guy, but I know better
You play me for fool, but I know better
Deep inside you're cool, yeah I know better

So bring it all, bring your all
All to me
I like what I see yeah
Bring it all, bring your all
All to me

She said I can stand the sound of the raindrops
Dripping down my window pane
I can stand the sound of the raindrops
Dripping down my window pane

So what you been waiting,
what you been waiting for?
You're holding back now
So what you been waiting,
what you been waiting for?
I got my eyes on you
Said I got my eyes on you

She said I can stand the sound of the raindrops
Dripping down my window pane
I can stand the sound of the raindrops
Dripping down my window pane
