

## Autograph

Nelson

I think I've seen every film you've been in  
First in line for your magazines  
On my bedroom wall you're staring back at me  
I blew my trust fund to get to know you  
I write your letters and you don't write back  
But that's okay, I'll always love you anyway girl

I just want your autograph (your autograph)  
A sign I met you in the past (touched your hand)  
Facetime in one line there's nothing that I won't do  
So what I got to give to get an autograph from you?

I'm number one on your fan club roster  
You're number one on the billboard charts  
Don't think I've made to your speed dial yet but it's a start  
I think you think we got a lot in common  
We're both in love with you and that's a fact  
Till you cry on my shoulder I need a little piece of you to tide me over

I just want your autograph (your autograph)  
Some proof I had the balls to ask (took the chance)  
Facetime in one line there's nothing that I won't do  
So what I got to give to get an autograph from you?

I hope this doesn't come across as scary  
I hope it's you when I lose my cherry  
Crazy maybe  
But baby stranger things have happen

I just want your autograph (your autograph)  
Just maybe you'll see me on the fair  
Facetime in one line  
But there's nothing that I wouldn't do  
For an autograph from you  
Yeah
