

What About Me?

Nelson

You begged me to stop my fussin'
There's something that needs discussin'
You've been keeping inside you
And it's high time I know

There's no way to break it gently
When you told me forever
It doesn't mean it wasn't true at the time
But it's time for you to go

Am I readin' you right?
Did you just turn out the light at the end
of our ten year Tunnel of Love?
Yeah, I know it's your hour of need-
But what about me?

I won't be the cage that holds you
I won't be the one who told you
that you're making a mistake
