

# I Live

Nemesea

You and me  
A guarantee  
All I know  
And all I long for  
You look at me  
And let me see  
All I need  
And all I long for

Stay with me  
Open your eyes  
And let me save you  
Trust in me  
I won't let go

'Cos I'd give my life for you  
And I'd die right here for you  
You are the one  
We're one and the same  
You are my life  
Just call out my name  
And I'll lead you through this open door

Here we are  
No not so far  
From where we left  
From where we started  
Take your time  
And don't let go  
You'll know for sure  
That I'll be with you

Stay with me  
Open your eyes  
And let me save you  
Trust in me  
I won't let go

'Cos I'd give my life for you  
And I'd die right here for you  
You are the one  
We're one and the same  
You are my life  
Just call out my name  
And I'll lead you through this open door

The bridges that we've build are strong enough  
The way we live, connect as one  
And when I look into your eyes I'm free  
It's all I know, it's all I need
