

# be like you

Nemo

So cute

I check on your profile like twenty times in a day  
The photos of your face and all your favorite places  
So obsessed, I can't remember my own name  
I'm hooked on what you say, could never look away

Ah-ah-ah  
What's the problem with me?  
Ah-ah-ah  
What the hell could it be?  
Ah-ah-ah  
What's the problem with me?  
Had to think for a while  
Now I see, I wanna be like you

Long hair, so fair, like you  
Big checks, hot sex, like you  
So fine, no time, like you (I'm so busy right now)  
If I could be more like you and less like myself  
I'd put a picture of me up on my shelf  
And I would dance in the rain  
My dreams would come true (Uh, uh)  
Oh, what I would do to be like you (You)

Everyone's been saying it's not healthy for my brain  
My friends think I'm insane (You're crazy), but I'm afraid to change  
'Cause everyone's life is going great  
But mine is pretty lame, so I need an escape

Ah-ah-ah  
What's the problem with me?
