

Black Hole

Nemo

We kissed goodbye, I let her go
The single tear ran down my nose
I brushed it off before it froze
And watched her walk across the road

Hearts get stolen and returned all the time
Can you tell me where the hell she went with mine?

There's a big black hole
Burning in my chest
There's a big black hole
Where nothing else is left
I find it hard to fall in love
Maybe that's because
There's a big black hole where she once was

I took the bike out for a ride
It feels so cold from mid July
The wind cuts through me every day
Since she took her love away

Hearts got broken and repaired all the time
Can you tell me what the hell to do with mine?

There's a big black hole (There's a big black hole)
Burning in my chest
There's a big black hole (There's a big black hole)
Where nothing else is left
I find it hard to fall in love
Maybe that's because
There's a big black hole where she once was

There's a big black hole
Burning in my chest
There's a big black hole
Where nothing else is left
I find it hard to fall in love
Maybe that's because
There's a big black hole where she once was
