

## Dance With Me

Nemo

She would never dance with me  
She would never dance with me  
Never in a million years  
She would never dance with me

Even if the sky was blue today  
If the sun was coming up  
If the storm would blow away, ah, ah, ah  
She still wouldn't see me  
Flying through the sky  
Oh me, oh my, I'm missing yesterday (Yesterday, yesterday)

Oh me, oh my, I'm missing yesterday  
(Yeah)

She would never talk to me (Uh)  
She would never talk to me  
Never in a million years  
She would never talk to me

Every time when I get high  
I think about the day I'll die  
I'm scared that it could be tonight  
I know I shouldn't waste my time  
Tryna be the boy she likes  
Tryna get her on my side

'Cause even if the sky was blue today  
If the sun was coming up  
If the storm would blow away, ah, ah, ah  
She still wouldn't see me  
Flying through the sky  
Oh me, oh my, I'm missing yesterday (Yesterday, yesterday)

She would never dance with me (Oh me, oh my, I'm missing yesterday)  
She would never dance with me  
She would never dance with me (Oh me, oh my, I'm missing yesterday)  
She would never dance with me
