

# Hocus Pocus

Nemo

Oh, oh, you're magical, baby  
I'm blown like dynamite  
I've had it, pickin' on daisies  
So clear, it's you and I

Can we make it alright, make it alright, make it alright?  
I wanna take it all night, take it all night, take it all night

I'm shot through the heart with your hocus pocus  
You make it hot, make it hard to focus  
I-I, I think I'm fallin' in love  
Oh, baby, work with your wand, turn me into a Mozart  
I wanna write you a magnum opus  
I-I, I think I'm fallin' in love  
You make it hard to focus  
You got that hocus pocus

Oh, oh, the curve has been spoken  
You're just like nicotine  
I need a sip of that potion  
Be-begging on my knees

Can we make it alright, make it alright, make it alright?  
I wanna take it all night, take it all night, take it all night

I'm shot through the heart with your hocus pocus  
You make it hot, make it hard to focus  
I-I, I think I'm fallin' in love  
Oh, baby, work with your wand, turn me into a Mozart  
I wanna write you a magnum opus  
I-I, I think I'm fallin' in love  
You make it hard to focus  
You got that hocus pocus

Hocus pocus, hocus pocus, hocus pocus, hocus pocus  
Hocus pocus, hocus pocus, hocus pocus, hocus pocus

I'm shot through the heart with your hocus pocus  
You make it hot, make it hard to focus  
I-I, I think I'm fallin' in love  
Oh, baby, work with your wand, turn me into a Mozart  
I wanna write you a magnum opus  
I-I, I think I'm fallin' in love  
You make it hard to focus  
You got that hocus pocus
