

DOOM

Nemzzz

Bro, ayy

You man breakin' your neck for the back, but me, I just tap that one with ease
You man tryna look good for gyal, but me, I just hit that one in my tee
Why did you get that table, fam? You know she comin' to me, yo
You know she leavin' with me though, ain't gonna hear from me, no

My name, best put some respect on that
Me and KT burn bare loud in the flat, now we out here just countin' bands
Since '018, gyal movin' mad
I ain't new to this
If I give your girl one Smartwhip, I could probably chop your ting
Ayy, I heard that man wanna line me
Come then, find me, I beg man try me
Man get hit while I'm at the back of the club doin' up two-two all vibey
2023, you're on a pedal bike, my G, like, damn, what you doin'?
You're older than me and shottin' for next man, G, like, damn, what you doin'?
If it ain't no gyal, can't talk on my name
I don't get mad, I just stay in my lane
You down-bad kids can't look my way
I'm feelin' a way, it's safe to say
Can't even get insured on a whip I want, I need a G63
She got a man, damn, shit, bro, why is your gyal on me?

You man breakin' your neck for the back, but me, I just tap that one with ease
You man tryna look good for gyal, but me, I just hit that one in my tee
Why did you get that table, fam? You know she comin' to me, yo
You know she leavin' with me though, ain't gonna hear from me, no

Ayy, I know I can buy that now, but I might hit bro for the refund meth'
I know I can book that flight in first, but I just let bro get it for less
I got so much leverage right now, I'm basically playin' chess
No BBL, she throwin' that shit, that kickback mad, could've broke the bed
Bust in her face, get rid of that acne
Uptown, used to be popped down, ain't have shit, so how can you at me?
I won't let her fuck, so she give me brain
I got these racks to cover the pain
Can't bust that down, so I keep it plain
I'm carrying weight, they're feelin' a way
But me, I don't care, either way, I'm paid

You man breakin' your neck for the back, but me, I just tap that one
with ease
You man tryna look good for gyal, but me, I just hit that one in my t
