So many questions, who do I ask? Where do I go from here?  
What are you smoking? Ain't no average girl, my one top tier  
What is it now? I stood on business and I made it clear  
I'm over it now, you done all this to make me look weird

If it's you or me, that's peak on you  
I be deepin' life but I try not to reflect on life while preein'  
' the view

I been lied to way too much, I don't even believe the truth  
Ay, my vision was blurry and I didn't know how to clean it  
I was happier when I was broke, ay, it's a awkward feelin'  
My family know I ain't been myself, some things that I gotta deal with

Ay, fuck the money, fuck the fame  
And if shit goes wrong today, ay, who else are they gonna blame  
?

If I don't help you out, you'll probably say I changed, ay  
My closest friend try draw me out  
Talk on me, that's word of mouth  
Speak with chest, no need to shout  
That shit gon' catch up, someone's gonna get bored up  
Why? 'Cah this shit don't add up
