Neon Hitch

Static  
Static  
Static  
Static

Brought my heart back from the dead  
All the sparks fly over...  
Life is just a dream so won't you spend it here with me  
Burning at the seams but you live in your fantasy

Come over here and turn the static to flames  
Fire's burning while we stand in the rain  
Got nothing to lose so we should take a shot in the dark  
Lighting the fuse, this circuit won't break us apart

Come over here and turn the static to flames  
Fire's burning while we stand in the rain  
Got nothing to lose so we should take a shot in the dark  
Lighting the fuse, this circuit won't break us apart

No one knows what lies ahead  
All the sparks fly over...  
Life is just a dream so won't you spend it here with me  
Burning at the seams but you live in your fantasy

Come over here and turn the static to flames  
Fire's burning while we stand in the rain
