

# Feel Good

Neon Trees

I was born naked just like every other kid  
I grew up scared to death  
I'd never quite fit in  
Then I met you, it was golden  
I was drinking way too much  
But what else is there to do when everything around you sucks  
Come on, come on

Hands up, touch the sky  
Everybody on your knees and testify  
I was searching for the truth  
I think they misunderstood  
Yeah the truth is, honey, I just wanna feel good

Oh, I'm tired of waking up alone  
I just wanna feel good, feel, feel good  
Stay, you and me, we can dance the night away  
I wanna make you feel good, feel, feel good

Yeah, you were naked in the dream I had last night  
Then things got wet and weird  
And I woke up all paralyzed  
I was shaken  
I was nervous  
Yeah, I'm way too old for this  
You can go your way and I'll go mine  
But it's us you're gonna miss  
Come on, come on

Hands up, touch the sky  
Everybody on your knees and testify  
I was searching for the truth  
I think they misunderstood  
Yeah the truth is, honey, I just wanna feel good

Oh, I'm tired of waking up alone  
I just wanna feel good, feel, feel good  
Stay, you and me, we can dance the night away  
I wanna make you feel good, feel, feel good

Yeah, it'll make sense  
A little depressed?  
Why do we make things so complicated?  
Yeah, are you anxious?  
A little depressed?  
Let's feel good again, feel good again

Oh, I'm tired of waking up alone  
I just wanna feel good, feel, feel good  
Stay, you and me, we can dance the night away  
I wanna make you feel good, feel, feel good

Hands up, touch the sky  
Everybody on your knees and testify  
I was searching for the truth  
I think they misunderstood  
Yeah the truth is, honey, I just wanna feel good
