

## Friendly Fire

## Neon Trees

I met you last January  
At a party for some people  
I had met a couple nights before  
we got social and some things got heavy for a while

The past is the past  
Your teller don't ask  
And honestly I shook  
There was tension on the telephone  
And days and day of  
Awkward looks  
passed down by a boy with a frown  
And a decade of feeling this way made me try to forget you

But then the tension starts  
And your attention had me thrilled  
I couldn't stop myself  
All of the friends inside the circle  
All of these friends I've never had

We are in our final days  
I can feel it  
And you predicted that it changed yeah  
No one ever knows  
And no one dying for the first time  
Lost for words  
Somebody figure me out  
I'm a nervous wreck and I'm afraid  
To let you in  
No one ever knows no one [x2]

So these mistakes  
Make me recall different days  
I've seen the ends of people  
Talking til they free  
And the lines and limousines  
Create torrential downpours inside of me  
Leave me to believe  
That I'm a hurricane and my intentions start  
And the tensions start

But then the tensions start  
And your attention had me thrilled  
I couldn't stop myself  
All of the friends inside the circle  
All of these friends I've never had

We are in our final days  
I can feel it  
And you predicted that it changed yeah  
No one ever knows  
And no one dying for the first time  
Lost for words  
Somebody figure me out  
I'm a nervous wreck and I'm afraid  
To let you in  
No one ever knows no no

No one ever know no one

Ah ahah ahahahah [x4]

Now you told me lies  
I could never forget  
I can only detect  
The beating in my chest  
Of the way they think  
And the way they act  
And the way they do [x2]

No one ever knows no one [x4]
