

Heaven

Neon Trees

Ecstasy, lie to me
Or tell me what you're really thinking
Destiny, amphetamines
We've been on a ship that's sinkin'

It's cursory to falling apart
Call it what you want, I call it modern art

Our history
Kerosene
You flick a lighter, burn it up

I do drugs
I love sex
I have complicated friends
And I really think they'd hate it if they let me into heaven
Fill my cup
Pour the rest
When I do, I do 'til death
Even though you're gonna hate it if they let me into heaven

If they let me into heaven, heaven, heaven
If they let me into heaven, heaven, heaven

Civilized, petty crimes
They never call me back when I call
Saturday, the joke's on me
Everyone's in California

It's cursory to do it all night
Some would go and call it social suicide
I'm paralyzed when the party dies
I think, I think I'll have another

I do drugs
I love sex
I have complicated friends
And I really think they'd hate it if they let me into heaven
Fill my cup
Pour the rest
When I do, I do 'til death
Even though you're gonna hate it if they let me into heaven

If they let me into heaven, heaven, heaven
If they let me into heaven, heaven, heaven

If they let me into heaven, heaven, heaven
If they let me into heaven, heaven

I do drugs
I love sex
I have complicated friends
And I really think they'd hate it if they let me into heaven
Fill my cup
Pour the rest
When I do, I do 'til death
Even though you're gonna hate it if they let me into heaven

If they let me into heaven, heaven, heaven

If they let me into heaven, heaven, heaven

Heaven, heaven, heaven

If they let me into heaven, heaven, heaven
