

# Losing My Head

Neon Trees

You need new friends, someone you can depend on  
Dispose of old ones like a box full of toys  
I understand that mentality lately  
Burn everything to the ground it wasn't for us

My latest trend is how much I adored you  
A consequence for a lifetime of fear  
When half of everything is something uncomfortable  
You learn to understand why everything's here

I'm out on the edge, I almost could  
Remember the last time I felt this good  
The more I know what heaven's like  
The more I'm chasing hell tonight

High water, swim harder  
I guess I'm trying to catch a wave  
I'm out on the edge seeing red  
I guess I found my way back by losing my head

I guess I found my way back by losing my head  
I guess I found my way back by losing my head

You need new friends, it's a common occurrence  
Like if you really love it, give it away  
I understand that mentality lately  
Burn everything to the ground to make way

My latest drug is how much I ignore you  
My latest thrill is consensual sex  
When half of everything is something uncomfortable  
You learn to understand what everything meant

I'm out on the edge, I almost could  
Remember the last time I felt this good  
The more I know what heaven's like  
The more I'm chasing hell tonight

High water, swim harder  
I guess I'm trying to catch a wave  
I'm out on the edge seeing red  
I guess I found my way back by losing my head

I guess I found my way back by losing my head  
I guess I found my way back by losing my head

Modern culture is a common regret  
Modern culture is a common regret  
Yeah, fuck your patience, I've been coming correct  
And now I found a way back by losing my head

I'm out on the edge, I almost could  
Remember the last time I felt this good  
The more I know what heaven's like  
The more I'm chasing hell tonight

High water, swim harder

I guess I'm trying to catch a wave  
I'm out on the edge seeing red  
I guess I found my way back by losing my head

I guess I found my way back by losing my head  
I guess I found my way back by losing my head
