Neon Trees

Sober and chemical thoughts  
Turn into fictional plots  
You're even here when you're not  
And it's scary

Day dreams in digital made  
Me fall for tricks of your trade  
Think I would tattoo your name  
Temporary

Wanna make some trouble  
Wanna cause a scene  
No one's getting hurt if it stays here in my dreams  
Don't you burst my bubble  
Let's truth or dare  
Have you ever had something you couldn't share

Now you're so far away  
But you're still here in my head  
Gonna lock you up and keep you like a, secret  
Every night and all day  
The feeling like we just met  
Gonna lock you up and keep you like a, secret

I feel the rush rush rush  
When I think of your touch touch touch  
But I'm keeping it hush hush hush  
For your love

Now you're so far away  
But you're still here in my head  
Gonna lock you up and keep you like a, secret

Over the chemical doubt  
I can't stop thinking about  
My couch and your mouth to mouth  
Motivation  
You're my brain cinema star  
I'll buy you drinks at the bar  
Become the freak that you are  
It's amazing

Now you're so far away  
But you're still here in my head  
Gonna lock you up and keep you like a, secret  
Every night and all day  
The feeling like we just met  
Gonna lock you up and keep you like a, secret

I feel the rush rush rush  
When I think of your touch touch touch  
But I'm keeping it hush hush hush  
For your love

Now you're so far away  
But you're still here in my head  
Gonna lock you up and keep you like a, secret
