

I wish I could talk to my best friend
But he knows my lover
I wish we could be closer
But you trust him like he is your brother
We've been fighting for months
But none of you have yet discovered
That we're not happy with each other
'Cause we're all busy enjoying our last summer

'Cause what would they say 'bout it
The choices we need in him
Guess we'll never know 'bout it
I wish we could tell them

I know we got the same friends
But I don't wanna make it complicated for them
Hard for me to stay
Even harder to part ways
I know we got the same friends
But I don't wanna make it complicated for them
We pretend we're okay
So, nothing's gotta change

We got, we got the same friends
We've been together since ten
We got, we got the same friends
We've been together since ten

We've been together since forever
We've been through everything
Maybe time has covered that our love got influenced under the covers
I hope by the time we're done our memories won't be counting just as numbers
We ran out of things
To run from our friends
[?] recover

'Cause what would they say 'bout it
The choices we meet in him
Guess we'll never know 'bout it
I wish we could tell them

I know we got the same friends
But I don't wanna make it complicated for them (complicated for them)
Hard for me to stay (stay)
Even harder to part ways (part ways)
I know we got the same friends (know we got the same friends)
But I don't wanna make it complicated for them
We pretend we're okay
So, nothing's gotta change

We got, we got the same friends
We've been together since ten
We got, we got the same friends (same friends)
We've been together since ten (been together since ten)
Together since ten
