

Dumpster Fire

NERIAH

Was it me lovin' too much
Or you not lovin' enough?
What's the reason we're here? (What's the reason we're)
You're drinkin' beer, playin' die
Goin' out every night
Thinkin' that you're in the clear

When you were wrong, I said you were not
I just played along, it was easy enough
Should it take this long to completely move on?
The internet says probably not

I started a dumpster fire
Fell in love with a liar
Did things I said I'd never do
And now I'm just a silent crier
Who plays with lighters
My love was gasoline to you
And now it hurts
'Cause I got burned

I finally heard from your mom
She said you haven't moved on
And you're still thinkin' 'bout me (You're still thinkin' 'bout)
I heard your job's takin' off
And you're enjoyin' it all
Wish it was the same for me (Wish it was the same for me)

When you were wrong, I said you were not
I just played along, it was easy enough
Should it take this long to completely move on?
The internet says probably not

I started a dumpster fire
Fell in love with a liar
Did things I said I'd never do
And now I'm just a silent crier
Who plays with lighters
My love was gasoline to you
And now it hurts
'Cause I got

A thousand calls when I'm not next to you
Fight and now we're sleepin' in different rooms
After all, I wish you woulda told the truth
'Cause I'm still confused

So was it me lovin' too much
Or you not lovin' enough?
What's the reason we're here?
