

Emotional Rollercoaster

NERIAH

Ohh-oh

Everything reminds me of you and I hate it
Like when I see a six on a license plate
And wonder who's behind the wheel
Everybody knows that I tried to be patient
But I'm back in aisle five kinda terrified
That you're gonna be here at the same time

Now it's over and I'm mourning someone that's still alive
Why do I miss it when it's not like we had a good time

'Cause we went up and over, left and right
When you're off, you're back in line
Holding on for dear life, emotional rollercoaster ride
Please take me off, don't say it's fine
"I try again" means we'll collide
Holding on for dear life, emotional rollercoaster ride

If there's an explanation I couldn't find one
You said you loved me heavy but it wasn't just me
If I was a stepping stone, you had more than one
God I wish that somebody woulda told me
I know love isn't easy but you were misleading
Convincing me that love was supposed to go

Up and over, left and right
When you're off, you're back in line
Holding on for dear life, emotional rollercoaster ride
Please take me off, don't say it's fine
"I try again" means we'll collide
Holding on for dear life, emotional rollercoaster ride
Ride
Emotional rollercoaster ride, rollercoaster ride

Maybe it's my fault 'cause I didn't let you go
Got so used to sorry, you never say you know
Deep down I let him become my [?]

Up and over, left and right
When you're off, you're back in line
Holding on for dear life, emotional rollercoaster ride
Please take me off, don't say it's fine
"I try again" means we'll collide
Holding on for dear life, emotional rollercoaster ride, ride
Emotional rollercoaster ride
