

First Time

NERIAH

You know that little thing that we call love
It's funny how we never get enough
It's never been so easy
To love someone so deeply
I love the way my name sounds in your mouth
And how your eyes light up when I'm around
It's never been so easy
To love someone completely

We're forever living in the honeymoon phase

Look at us
Even after all these years
We're more in love
No, I've never been more sure that you're the one
The night we met, right before we kissed in the Paris light
I'm always falling for you like the first time

You know that little thing that we call trust
I've never been the one to give it up
With you it's not a question
With you I finally get it, mm
It's more than anything your eyes could see
It's better than the movies said it'd be
What a perfect ending
To never have an ending

We're forever living in the honeymoon phase

Look at us (Look at us)
Even after all these years
We're more in love (More in love)
No, I've never been more sure that you're the one (You're the one)
The night we met, right before we kissed in the Paris light
I'm always falling for you like the first time

Oh-oh-oh-oh, oh-woah-oh-oh, oh-woah-oh
Falling for you
Oh-oh-oh-oh, oh-woah-oh-oh, oh-woah-oh-oh
Like the first time
Oh-oh-oh-oh, oh-woah-oh-oh, oh-woah-oh
Falling for you
Oh-oh-oh-oh, oh-woah
I'm always falling for you like the first time
