

## Go Find Less

NERIAH

When it comes to believing in us  
I'm turning into an atheist  
I'm being serious  
I'm getting delirious  
Trying to get you want me

I've been grieving and crying  
Enough for the both of us  
How can you say you're patient  
When I'm the one waiting  
Waiting for you to just like me

And I'm trying everything  
But everything is the problem  
I'm changing all these things  
But that won't change anything

Cause you say I'm a cannonball fucking up your life  
Only thing I'm good at is wasting all your time  
I want too much  
You want way less  
If I'm too much  
Forget the rest  
Cause I'm crazy complicated and should probably be on meds  
Only thing that makes me happy's loving you to death  
If that's too much  
Forget the rest  
If I'm too much  
Then go find less

When it comes to the story of us I'm  
Ripping all the pages out  
We were a battle ground  
Too many fights to count  
I'm sorry if you're gonna hate me

And I'm trying everything  
But everything is the problem  
I'm changing all these things  
But that won't change anything

Cause you say I'm a cannonball fucking up your life  
Only thing I'm good at is wasting all your time  
I want too much  
You want way less  
If I'm too much  
Forget the rest  
Cause I'm crazy complicated and should probably be on meds  
Only thing that makes me happy's loving you to death  
If that's too much  
Forget the rest  
If I'm too much  
Then go find less

Cause you only care about you  
No matter whatever I do  
You only care about you

About you  
It's true  
After everything you put me through  
You know was too good for you  
And you had way too much to lose  
So go find less
