

## KINDA LIKE

NERIAH

It's kinda like rewatching your favorite movie  
And knowing every word of the ending  
'Cause when you already know someone  
It's not as scary if things end badly

You knew I'd come fall to you  
Just like you'd do with me too  
SOS, see you soon  
I've been stuck overthinking it  
Wishing that shit was different with us, it's just

I'd rather stay in love with who I'm used to, I need you  
Three years back and forth after what we've been through  
The "I love you's", don't wanna tell my story  
To someone that doesn't know me, I have to be with you  
I don't wanna fall for someone new  
So please tell me I'm not someone you're used to

So please tell me I'm not someone you're used to  
So please tell me I'm not someone you're used to  
So please tell me I'm not someone you're used to  
So please tell me I'm not some-

It's kinda like waking up from a bad dream  
And knowing how to fall back asleep  
Kinda like how I know how to finish your sentence  
And know when you get jealous  
I like making you jealous

You knew I'd come fall to you  
Just like you do with me too  
SOS, see you soon  
I've been stuck overthinking it  
Whishing that shit was different with us, it's just

I'd rather stay in love with who I'm used to, I need you  
Three years back and forth after what we've been through  
The "I love you's", don't wanna tell my story  
To someone that doesn't know me, I have to be with you  
I don't wanna fall for someone new  
So please tell me I'm not someone you're used to

I need it ba-ba-ba-back too  
I need it back, used to  
I need it back  
Don't wanna tell my story to someone that doesn't know me  
I have to, I need it back  
I-I-I don't wanna fall for someone new, someone new  
So please tell me I'm not someone you're used to
