

# Payback

NERIAH

Seatbelt on  
We're going down crashing  
Warning signs  
My whole life is flashing

Last week I know is saw the real you  
For once I'm not the one with issues  
Blue eyes and some shitty tattoos  
Hate to tell you

I hope it hurts bad  
Wish you could take it all back  
My kinda Payback  
Loving and leaving like that

According to you  
Can't win or lose  
Over and over  
So goodbye to you  
I hope it hurts bad

All you did was take me for granted  
Cried a bit  
What even happened?

Last week I know is saw the real you  
For once I'm not the one with issues  
Blue eyes and some shitty tattoos  
Hate to tell you

I hope it hurts bad  
Wish you could take it all back  
My kinda Payback  
Loving and leaving like that

According to you  
Can't win or lose  
Over and over  
So goodbye to you  
I hope it hurts bad

Now I'm the one that got away  
I know you're hating it  
Told you I'd be hard to replace

And I hope it hurts bad  
I hope it hurts bad

I hope it hurts bad  
Wish you could take it all back  
My kinda Payback  
Loving and leaving like that

According to you  
Can't win or lose  
Over and over  
So goodbye to you

I hope it hurts bad

It's just payback  
Call it payback
