

# Perfect Goodbye

NERIAH

I'll be parked in your driveway  
On a Tuesday  
I wouldn't wanna ruin your weekend  
You'll know it by the look on my face  
And then you'll say  
You're gonna miss me, but you know why I'm leaving

We're a chain reaction  
This ain't out of the blue  
Crying while we're dancing in this room

We can't get anything right  
You and I  
Made up a million times  
You and I, yeah  
We're no good at love  
Got one thing left to try  
We could have a perfect goodbye  
We could have a perfect goodbye

I tried giving you space and saying sorry  
But deep, deep, deep down we know it didn't matter  
It's just like breaking a habit  
When you want me  
I forget everything that's ever happened

We're a chain reaction  
This ain't out of the blue  
Crying while we're dancing in this room

We can't get anything right  
You and I  
Made up a million times  
You and I, yeah  
We're no good at love  
Got one thing left to try  
We could have a perfect goodbye  
We could have a perfect goodbye

We could have been something  
A diamond in a dozen, babe  
Till one of us was starting to fall  
But things got complicated  
We could have had the greatest, oh  
Perfect goodbye  
We could have a perfect goodbye
