

# Promise Ring

NERIAH

I'd rather feel nothing than whatever us is  
I swore falling for you wouldn't hurt at all  
Zero to one hundred, fighting 'bout nothing  
Every time we make up there's still something wrong

But when you touch me, my whole body goes numb  
Call me crazy, but I thought it was love  
Are you wasting my time just for fun?

I know that you lie and make-believe  
So say you love me, you're still here  
Tell me fake apologies  
Win the boyfriend of the year  
You'd be the promise ring for promising nothing  
It's bittersweet, not worth a thing  
If you lie and make-believe  
Please promise me that, that you'll never leave

That you'll never leave

We were electric, so unexpected  
The last time we talked, you told me not to call

But when you touch me, my whole body goes numb  
Call me crazy, but I thought it was love  
Are you wasting my time just for fun?

I know that you lie and make-believe  
So say you love me, you're still here  
Tell me fake apologies  
Win the boyfriend of the year  
You'd be the promise ring for promising nothing  
It's bittersweet, not worth a thing  
If you lie and make-believe  
Please promise me that, that you'll never leave

Oh-oh-oh-oh, oh

Hard to let you go  
But, I know it's what I have to do  
It's time to be alone

I know that you lie and make-believe  
So say you love me, you're still here  
Tell me fake apologies  
Win the boyfriend of the year  
You'd be the promise ring for promising nothing  
It's bittersweet, not worth a thing  
If you lie and make-believe  
Please promise me that, that you'll never leave
