

Rather You Than Me

NERIAH

Summer sweat, summer love
Somewhere in between falling in love and figuring it out
How did we go from being close
To hanging up and almost shutting down
Every night when we go out
I'd rather have none around
I tried my best but I guess
I'm too emotional thank god you found out

I've been hurt
This is worse
I don't have the words to say this isn't working

I hope you leave
Stop telling me that we are meant to be
I'd rather you than me so do it now I don't wanna do it next week
Calm me down while I'm screaming that you'll miss me
I hope you leave
And see how good everything was with me
I'd rather you than me come running back
Want me back asking nicely

I'd rather you than me
I'd rather you than me

I'll be upset
For a sec
Probably tell you to come back one more time
I'll miss the sex
It's the best
But not good enough to keep me here for a while

I've been hurt
This is worse
I don't have the words to say this isn't working

I hope you leave
Stop telling me that we are meant to be
I'd rather you than me so do it now I don't wanna do it next week
Calm me down while I'm screaming that you'll miss me
I hope you leave
And see how good everything was with me
I'd rather you than me come running back
Want me back asking nicely

I'd rather you than me
I'd rather you than me
