

Red Flag

NERIAH

I know that I'm the problem this time
Keep lookin' for excuses to fight
Over somethin' that doesn't even matter
Oh, tell me what's the matter?
What's the matter with me?

Midnight, wide awake and stalkin' all your exes
Pictures, seein' you in love before we dated
Right next to me, you're sleepin' while I'm devastated
What a shame

So now I'm wavin' the red flag
Like a train wreck the way I get sidetracked
Misbehavin', but I wasn't like that
No, you made me like that
Yeah, it's 'cause of you
So now I'm wavin' the red flag
Guess I took on all your issues, that's my bad
Say I'm crazy but, boy, I wasn't like that
No, you made me like that
You made me a red flag, red flag

I get this feelin', like I'm suffocatin'
And I just can't leave it alone
I make up things until I start believin'
That I should just go through your phone
I know it's not right, I know I should trust you
But like? Right?
'Cause I know when you're lovin' somebody
It might start to hurt sometimes
Oh

Midnight, wide awake and stalkin' all your exes
Pictures, seein' you in love before we dated
Right next to me, you're sleepin' while I'm devastated
What a shame

So now I'm wavin' the red flag
Like a train wreck the way I get sidetracked
Misbehavin', but I wasn't like that
No, you made me like that
Yeah, it's 'cause of you
So now I'm wavin' the red flag
Guess I took on all your issues, that's my bad
Say I'm crazy but, boy, I wasn't like that
No, you made me like that
You made me a red flag, red flag, ah

Red flag, red flag, ooh, ooh
Yeah, it's because of you
Red flag, red flag, ooh, ooh
I'm always callin' you
Red flag, red flag
Yeah, it's 'cause of you

So now I'm wavin' the red flag
Red flag, red flag, ooh, ooh

Red flag, red flag, ooh, ooh
Red flag, red flag
Yeah, it's 'cause of you
