

High Time

Nerina Pallot

All the way to Joshua, we were singing in the back, singing in the back

Got the windows down, the devil's on the highway

Fire on the mountainside, burning in the black, burning in the black

You can calm down, he said, "Honey, do it my way"

'Cause it's high time that you gave me loving

High time, boy, it's been a long time coming

High time that you gave your love to me

High time that you gave me loving

High time, boy, it's been a long time coming

You should give your love to me

Coyotes on the radio howling in the night, howling in the night

Fine lines, yeah, we're dizzy in the darkness

Do you want me like I want you?

'Cause I want you

Give me everything, not a sliver less

'Cause it's high time that you gave me loving

High time, boy, it's been a long time coming

High time that you gave your love to me

High time that you gave me loving

High time, boy, it's been a long time coming

Come on, give your love to me

High time that you gave me loving

High time, boy, it's been a long time coming

High time that you gave your love to me

Oh, high time that you gave me loving

High time, boy, it's been a long time coming

You should give your love to me

When you give love, you get love

When you give love, you get love

You should give your love to me

High time that you gave me loving

High time, boy, it's been a long time coming

You should give your love to me
