

## Circles

Nero

I tried not to lie to you  
Didn't get me that far  
Cause everything I tried to do  
Made me lose who you are

And even if you ever take that step towards us  
You knew I'd struggle

Cause we're going nowhere  
Cause we're going nowhere  
Cause we're going nowhere  
We move in circles  
We move in circles

I tried not to like to you  
It lasted a day  
Cause everything I tried to do  
It pushed you away

And even if you ever take that step towards us  
You knew I'd struggle

Cause we're going nowhere  
Cause we're going nowhere  
Cause we're going nowhere  
We move in circles  
We move in circles

We move in circles  
We move in circles
