

# Running from Reality

Nero

(Baby)

(Baby)

I can't get enough of you  
Feeling like apart of me  
I can tell what's right from wrong  
Even though I'll always be  
Caught up in a mystery

I just can't get through to you  
Even all the galaxies  
I can see the light are from  
Even though I'll always be  
Running from reality

Running from reality, running from reality  
Running from reality, running from reality  
(Reality, reality, reality, reality)  
(Reality, reality...)

(Running from reality, running from reality)  
(Running from reality, running from reality)  
(Even though I'll always be)  
(Running from reality)  
(Even though I'll always be)  
(Running from reality)  
(Reality, reality, reality, reality)  
(Reality, reality, reality, reality)  
(Reality, reality, reality, reality)  
Even though I'll always be  
Running from reality

I can't get enough of you  
Feeling like apart of me  
I can tell what's right from wrong  
Even though I'll always be  
Caught up in a mystery

I just can't get through to you  
Even all the galaxies  
I can see the light are from  
Even though I'll always be  
Running from reality

Running from reality, running from reality  
Running from reality, running from reality  
(Reality, reality, reality, reality)  
(Reality, reality...)
