

## Solar

Nero

You can watch me over time  
And through  
The dark you see me shine  
When you can imagine  
And you make it happen

So see me in the stars  
It's solar  
It's where I want to be  
We've come so far  
This moment  
Was meant for you to see me in the stars  
Oh, see me in the stars

(We've come so far)

You can watch me over time  
And through  
The dark you see me shine  
When you can imagine  
And you make it happen

So see me in the stars  
It's solar  
It's where I want to be  
We've come so far  
This moment  
Was meant for you to see me in the stars  
Oh, see me in the stars

(We've come so far)

So see me in the stars  
It's solar  
It's where I want to be  
We've come so far  
This moment  
Was meant for you to see me in the stars  
Oh, see me in the stars  
To see me in the stars
