

What Does Love Mean

Nero

We met on a platform at midnight
Got on a train together for a long, long ride
I turned to you as you looked me in the eyes
And you said 'what does loves mean? What does love mean?

And as the train sped along the track
We knew there was no way we could ever go back
And on that journey I turned and I whispered to you
This is what love means, it's what love means

And as the train sped along the track
We knew there was no way we could ever go back
And on that journey I turned and I whispered to you
This is what love means, it's what love means
