

# Champagne

NERVO

Take me to the time where there was only champagne (champagne)  
Take me to the place where we both had it all (champagne, champagne)

Rest your head, let's pretend  
And I promise I won't try and fight it (oh)  
This is it, where it ends  
I know it's comin', I won't deny it  
You don't owe me anything, anything no more  
No more, no you don't  
You don't owe me anything, anything no more

Take me to the time where there was only champagne (champagne)  
Take me to the place where we both had it all (champagne, champagne)

Champagne, champagne (oh)  
(Yeah, yeah, yeah) Champagne, champagne

You don't owe me anything, thought you should know that  
All the shit you've put up with, girl, I deserve a toe tag  
Sunny days, clear skies, rainy days, cold nights  
You was there for me when I was snowed in, you know that I know  
right  
But tonight's your night (bang, bang)  
You was with me when the po put you and me in the coupe  
You the only girl that can get a nigga in a suit  
Drop top ridin 'cause you're so exotic  
You won't reply to gold 'cause you're like a diamond (skrtrt skrtrt)  
We can go out shoppin', pop tags  
Since we got assistants we can leave the mall without bags  
Take me to the time that we first met  
Take me to the time that we first met

Take me to the time where there was only champagne (champagne)  
Take me to the place where we both had it all (champagne, champagne)

Champagne, champagne (oh)  
(Yeah, yeah, yeah) Champagne, champagne

Take me to the time where there was only champagne (champagne)  
Take me to the place where we both had it all (champagne, champagne)
