

# Flames

NERVO

Wasn't looking for someone to ever hold me up  
You knew that from the start  
Old movies under the stars, drunken nights on boulevard  
But you never had my heart  
(Baby)

And I could tell that you were so into me, babe  
More than I was into ya  
The chemistry, it never flowed into my veins  
'Cause I never needed ya

And I could tell I was wrong for your love  
The lies I would spin, they would hurt  
(Hurt)  
You know you were never enough  
Oh

All I want is flames  
Burning me up till the daylight  
Bringing the heat on me all night  
Thought you were good at the game  
Playing me up till the daylight  
Keeping the heat on me all night  
But you just put it out

Never thought I'd be the one for never wanting more  
But you knew that from the start  
I made it clear, I made it known that it was just some fun  
Don't wanna talk about our hearts

And I could tell that you were so into me, babe  
More than I was into ya  
The chemistry, it never flowed into my veins  
'Cause I never needed ya

And I could tell I was wrong for your love  
The lies I would spin, they would hurt  
(Hurt)  
You know you were never enough  
Oh  
I couldn't give you more

I wanted flames  
All you did was blow off smoke  
You barely made it rain  
Man, I love that money, so I-

All I want is flames  
Burning me up till the daylight  
Bringing the heat on me all night  
Thought you were good at the game  
Playing me up till the daylight  
Keeping the heat on me all night  
But you just put it out

It's time I say bye, I gotta leave you  
It's over, baby, and you don't need someone like me

I tried to give in to all the warning signs  
But no, no, no, I won't come back

All I want is flames  
Burning me up till the daylight  
Bringing the heat on me all night  
Thought you were good at the game  
Playing me up till the daylight  
Keeping the heat on me all night  
But you just put it out

All I want is, all I want is  
All I want is, all I want is flames  
All I want is, all I want is  
All I want is

All I want is flames  
Burning me up till the daylight  
Bringing the heat on me all night  
Thought you were good at the game  
Playing me up till the daylight  
Keeping the heat on me all night  
But you just put it out
