

# Forever Or Nothing

NERVO

There's a pain that comes and wakes me  
In the night  
So strong I cannot fight  
No matter what I try, I try  
But the words you say  
They're playin' heavy on my heart  
They're tearing me apart  
Now I'm pushing them who we are

Forever or nothing  
Forever or nothing  
But now if the the colors fade to grey  
I wanna know you're here to stay  
Forever or nothing  
Forever or nothing  
'Cause I don't know how to this pain  
I've given you love and watched you walk away  
Oh

It's not fair, not right, not wrong  
But it's gone too far  
I look for you when things get hard  
And I don't even know what we are  
But your smell, your lips, your taste  
It stays wrong my tongue  
And even when you go  
Are we gonna do this all over?

Forever or nothing  
Forever or nothing  
But now if the the colors fade to grey  
I wanna know you're here to stay  
Forever or nothing  
Forever or nothing  
'Cause I don't know how to this pain  
I've given you love and watched you walk away  
Oh  
Oh  
Oh  
Forever or nothing
