

## Lights Down Low

NERVO

Turning down the lights again  
Listening to the sound  
I can feel it closing in, yeah  
And we got this time now

Every little bit of this place has got me going wild  
I'm at the point of where I can't go back around it  
All you gotta free is your mind, let it be sublime  
And don't ask why

'Cause there's a reason we don't know  
There's a place we wanna be  
It's a feeling that we get  
You know, you know  
Let it creep into your blood  
Let it move into your soul  
There's a moment that is lost  
That's when you know, you know (ooh)

Turning down the lights again  
Everything is as it should be  
We don't need to fight how this will end cause  
You're here with me, you're here with me

Every little bit of this place has got me going wild  
I'm at the point of where I can't go back around it  
All you gotta free is your mind  
Let it be sublime and don't ask why

Let it creep into your blood  
Let it move into your soul  
There's a moment that is lost  
That's when you know, you know (ooh)

Turn the lights down low  
Turn the lights down low  
Baby, turn the lights down low  
Baby, turn the lights down low  
Turn the lights down low  
Baby, turn the lights down low

'Cause there's a reason we don't know  
There's a place we wanna be  
It's a feeling that we get  
You know, you know  
Let it creep into your blood (let it creep)  
(Turn the lights down low  
Turn the lights down low  
Baby, turn the lights down low)  
Let it move into your soul  
(Turn the lights down low  
Turn the lights down low  
Baby, turn the lights down low)  
That's when you know
