

## Deep Misery

Nervosa

Hunger compresses the stomach, despair increasing  
Skin and bones, weakness, anemia and diseases

The cold from the ground freezes the soul  
People despise deep misery  
Who cares, does nothing to change  
This is not impossible for anyone

Anybody cares?  
Anybody cares?

The pain not to be nothing  
The pain not to be anyone anyone  
The pain not to be anymore  
The pain to be excluded

Deep misery  
Deep misery  
Deep misery  
Deep misery

The pain of hunger is not a reason  
People pretend not to see  
Who cares, does not contribute  
And you can be in this situation

A bother of a hard ground brings pain  
People ignore what they see  
Who cares, doesn't really help others  
This can happen to you, you are not free

Anybody cares?  
Anybody cares?
