

# Devastation

Nervosa

Devastation - I can't breathe  
Devastation - no future  
Devastation - killing innocents  
Devastation - no life, no future

Cause we don't use intelligence in our favor  
Cause we do use our feelings to fuel our selfishness

Devastation!  
Devastation!

Devastation - I can't breathe  
Devastation - no future  
Devastation - killing innocents  
Devastation - no life, no future

We don't know what will kill the world  
But we keep on living, keep on making mistakes

Devastation!  
Devastation!

Devastation - I can't breathe  
Devastation - no future  
Devastation - killing innocents  
Devastation - no life, no future

We keep on spreading the disease  
Even having reasoning in our favor

Devastation!  
Devastation!

Devastation - I can't breathe  
Devastation - no future  
Devastation - killing innocents  
Devastation - no life, no future

The world's epidemic  
The plague of biodiversity  
The cancer of the ecosystem  
We are foolish intelligence

Devastation!  
Devastation!
