

# Endless Ambition

Nervosa

A dark world  
Where desire blinds  
A life spent  
Turning lies into facts  
Driven by discontrol

They only care  
When there's profit and gain  
All they want  
Is a troop of slaves  
No future  
No mercy

Prophets of Cruelty

Nations built on betrayal  
Endless ambition

Vulgar fabrications  
Tear us apart

Barren horizons  
Age of decline  
Degeneration  
Meaningless lives

Nations built on betrayal  
Endless ambition

Prisoner, urban decay  
A world of hate  
A moving grave

Fake idols  
With no emotion

Blessing their weapons  
By the holy hand  
Behold the youth  
Dead on command

Distorted  
Unreal

Prophets of cruelty

Nations built on betrayal  
Endless ambition

Endless ambition  
Endless ambition  
Endless ambition  
Endless ambition
