

Under Ruins

Nervosa

I feel death coming
Getting lonelier everyday
In the cravings that consume me
Self destruction without limits

Under ruins
I feel dead
Under ruins
Is the end
Under the rubble
I beg for some more
Under the rubble
I don't care anymore

A deadly piece of who I
Dream to be
Shattered and hollow
Ghost

The way to the bottom is fast
Need to relapse
There's no way back
Gets darker and deeper

Slowly turning to a corpse
Skin and bones
They despise me
As I go by

Under ruins
I feel death
Under ruins
Is the end

Save me
Help me
There's no privilege for me

Save me
Help me
Don't let me die in the streets
Cold at night
There is no future and no past
Hallucinating from the glue
A homeless child is doomed

Under ruins
I feel death
Under ruins
Is the end
Under the rubble
I beg for some more

Under the rubble
I don't care anymore

I don't care anymore

Under ruins
Under ruins
Is the end

Under ruins
Under ruins
Is the end
