

# RUSSIAN ROULETTE

Nessa Barrett

I don't need to know  
The odds that we survive  
I'll still hold you close  
Like the sharp edge of the knife

Finally, I'm not afraid to die  
As long as you're the last love of my life

Darling, I would risk it all for you  
Betting on a hand I was bound to lose  
Deal me in again 'cause it hasn't killed me yet  
Love can turn a red heart black-and-blue  
I'd still play the game if you asked me to  
Hoping for the best with a gun against my head  
Russian roulette

If you gotta go  
Put the blindfold on my eyes  
I'll hold on to hope  
'Cause I love the way she lies

Finally, I'm not afraid to die  
As long as you're the last love of my life

Darling, I would risk it all for you  
Betting on a hand I was bound to lose  
Deal me in again 'cause it hasn't killed me yet  
Love can turn a red heart black-and-blue  
I'd still play the game if you asked me to  
Hoping for the best with a gun against my head  
Russian roulette

Don't know what you will get  
Love is Russian roulette  
Don't know what you will get  
(Hasn't killed me yet)  
Don't know what you will get  
Love is Russian roulette  
Don't know what you will get  
Love is Russian roulette
