

Anxiety Attack

Nessly

I just, I
I just, I
I get overwhelmed
Aye-yi
Aye-yi-I
She says get out your head
Get over yourself
Woah, oh oh

I hate crowded places
I'm anxious
I like counting faces
Until I'm anxious
Crack open a whole new pint
When I'm anxious
They both want to stay the night
I'm anxious

All your kisses poison
Like I mix this poison
I came through to pipe
Like I came to fix your toilet
In the Porsche with a portal gun
Like Justin Roiland
I throw them hundreds to the sky
Like it's a boy!
Gender reveal In the strip club
Siracha my dimsum
Face so pretty on my newest bitch
Hey, tell my exes that it's nothing against them
Hey, throw a Bentley bentayga on the business card it's a tax exemption
She love my dick so much
She made your relationship into a friendship
Talking to the voice recognition in the rolls
Like a clairvoyant
Two things I remember for life
My first Rollie first Jordan's
All the secrets that I shared with my first love
Still give me paranoia
And my first Gucci belt
Made me feel like Oscar De La Hoya

I hate crowded places
I'm anxious
I like counting faces
Until I'm anxious
Crack open a whole new pint
When I'm anxious
They both want to stay the night
I'm anxious

Okay what?
She said why should I
Jump in slide the lamb
Why not? Let's ride around and see Rotterdam
I, just wanna lay you down
And put it in your diaphragm

Know you love to spy around
Okay, my models all Russian
Love my tings in London
She asked me can I teach her man how to beat it
Like a genius deconstructed
Bring a diplomat to the tarmac
Semi automatics through customs
Shawty bad bad but she mad
Cause I need the carfax before I bust her
Okay I love your aroma
Yeah, I love your persona
I don't want to dive in that too quick
Cause you might got corona
I had a hundred k
Way before I had a diploma
Twelve was tryna meet the quota
I was tryna cure glaucoma
Hey, yeah, yeah, yeah

I hate crowded places
I'm anxious
I like counting faces
Until I'm anxious
Crack open a whole new pint
When I'm anxious
They both want to stay the night
I'm anxious

I, I just, I
I get overwhelmed
Aye-yi
Aye-yi-I

She says get out your head
Get over yourself
Woah, oh oh
