

Falling Down

Nessly

I'm fallin' down from the sky
I won't visit you at night
I'm in your window like a spy
I just want try some of your pie
I'm in the sky, fallin' down
Fallin' down
I'm in the sky, I'm fallin' down
I'm in the sky, I'm fallin' down

Grass ain't greener on this side
I don't use no fertalize
You got my bone all fossilized
I write my name from the back and I customize
Don't go Snapchattin' my chain I rock custom ice
Got plans to purchase an island, we'll colonize
Memorial Drive, I left my heart on the east side

I'm fallin' down from the sky
I won't visit you at night
I'm in your window like a spy
I just want try some of your pie
I'm in the sky, fallin' down
Fallin' down
I'm in the sky, I'm fallin' down
I'm in the sky, I'm fallin' down

I can clear your nightmares
He can't cover your flight fares
I can't sip that Sprite 'cause it look to clear
I know you have hallucinations when I'm not there
I'm off that Mustard, I love you and it's just not fair
I fed you hope
Hit you, split you, then I get back with the hocus pocus

I'm in the sky, fallin' down
Fallin' down
I'm in the sky, I'm fallin' down
I'm in the sky, I'm fallin' down
