

Yeah yeah yeah  
Don't touch me, don't touch me  
I know you want this forever  
Sorry babygirl I'm through with this  
You don't know what I've been through for this  
I know it may seem all ludicrous  
Usually don't get my movements  
You say it seems like a mood swing  
You love me but I know you never adjust  
I really wanted that Mulsanne  
And you said I wanted too much

So love me forever or never love me at all  
We'll make plans to LA, you say you changed it all  
At this point I gave it all, I could  
Once I'm on that flight I'm gone for good  
Don't you tell me I went Hollywood  
Don't you tell me I went Hollywood  
Hey, Hollywood

I could never go to route  
I get them bands and then I'm out

Don't love me, don't love me, if it ain't forever  
Don't touch me, don't touch me  
I know you want this forever, well I  
Baby you know how clever I get  
When I'm touching your body and it's so wet  
Does it even make sense when you make sense  
Now I see you ride around with your new friends  
Question on questions, I need to  
How could I ever believe you  
Lying and lying no need to  
Everything you say, I see through  
Cause you see too

So love me forever or never love me at all  
We'll make plans to LA, you say you changed it all  
At this point I gave it all, I could  
Once I'm on that flight I'm gone for good  
Don't you tell me I went too Hollywood  
Don't you tell me I went too Hollywood  
Hey, Hollywood
