

## Icy Crucifixes

Nessly

Daytrip took it to ten (Hey)

My soda help me dream  
Every once in a blue moon  
I promise I'm going clean  
God, give me a queen  
Lord, only you know how much she would mean to me  
Them hundreds give me self esteem  
Count me out, I'm countin' up, I'm still the same me  
I don't know what more I need  
Expect for the ones that I love to believe in me (Mwah), yeah

Sometimes I wake up out my sleep and I know I'm drippin'  
I was reachin' for your body, this shit feel way different  
Look up at the stars and I know that somebody listening  
I found out you in my purse, I iced my crucifixes  
Every game comes at a loss  
Insane, I feel exhausted  
Every stain can't be washed  
They say they love me a lot, want everything I got  
Like a lab diamond, it won't happen on my watch

(I found out you in my purse, I iced my crucifixes  
Iced my crucifixes, iced my crucifixes  
I found out you in my purse, I iced my crucifixes  
Iced my crucifixes, iced my crucifixes)

My soda help me dream  
Every once in a blue moon  
I promise I'm going clean  
God, give me a queen  
Lord, only you know how much she would mean to me  
Them hundreds give me self esteem  
Count me out, I'm countin' up, I'm still the same me  
I don't know what more I need
